Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION:

1 Tablespoon (Tbs) = 3 teaspoons (tsp)
1 fl oz = 2 Tbs
4 fl oz = 1/2 cup

SHAKE WELL BEFORE USE

Specially Formulated for residential use. **DO NOT USE INSIDE DWELLINGS.**

Do not spray animals with this product. Do not allow people or pets to enter treated area until after spray has dried.

HOW TO APPLY:

This product may be applied using the Mosquito 86 applicator.

TREATMENT FOR HOME-INVADING PESTS – OUTDOORS

Including Bees, Flies, Hornets, House Flies, Mosquitoes, Wasps, Yellowjackets. Dispense 7.5 teaspoons (1 1/4 oz.) of concentrate into sprayer tank. Fill tank with 1.5 gallons of water (to the fill line) to cover 450 square feet or 90 linear feet. Gently tighten the cap. Put the backpack on and tighten the straps by pulling downward. Attach the quick disconnect to the blower tubing; push together until it clicks. Start the blower and set to the highest rpm setting. Squeeze together the two sides of the shutoff valve located on top of the blower tube to begin fluid flow. Begin spraying.

Spray with a brisk back and forth motion, walking as you spray, keeping the wind at your back. **ALWAYS KEEP THE NOZZLE MOVING BRISKLY BACK AND FORTH.**

To keep insects from entering the house, spray a 3-foot band of soil around the house next to the foundation and the house foundation to a height of 2 feet; also spray walks, garbage cans and garbage areas, window frames, doorways, porches, patios and shrubs and trees.

When spraying is complete, push button on shutoff to stop fluid flow **prior** to reducing blower speed. Turn off the blower. Rinse tank with clean water, then fill tank half full with water and flush sprayer. Allow tank and sprayer to air dry before storing.

MOSQUITOES – OUTDOORS

Mosquitoes coming to rest on areas treated for the control of home-invading pests will be killed for varying periods of time after application, depending on exposure of treated areas to weathering conditions.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Keep container closed when not in use. Do not store near food or feed. Protect from freezing. In case of spill or leak on floor or paved surfaces, soak up with sand, earth, or synthetic absorbent. Remove to chemical waste area.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

MOSQUITO 86

AGENT

KEEP OUT OF REACH OF CHILDREN CAUTION

See booklet for First Aid and additional Precautionary Statements.

ACTIVE INGREDIENT:

*Permethrin (3-phenoxyphenyl)methyl(±)-cis, trans-3-(2,2-dichloroethenyl)-2,2-dimethylcyclopropanecarboxylate 9.00%

**OTHER INGREDIENTS 91.00%

100.00%

*Cis,trans ratio: Min. 35% (±) cis and max 65% (±) trans

**Contains petroleum distillate
